

World Vision International Nepal (2021-2025)

Policy and Advocacy Intervention

Goal

Policy change and/or implementation addressing the root causes of children's vulnerability, in line with global goals (local to national/global advocacy and impact)

Strategic objectives

1. Increased policy influence through evidence based local to national level advocacy to ensure ending violence against children and rights of children in Nepal.
2. Increased meaningful participation of children to establish child rights as priority by government.
3. Improved government service delivery mechanism and governance in practices in line with SDGs

Results

- Amplified local voices at different level for sectoral policy based on evidence generated at programme level,
- Established partnership and mobilised local community, children, CSOs, media and other stakeholders to ensure government put child at centre of decision making ,Increased collaboration with government at national and sub-national level for integrating and institutionalising the ending child marriage campaign,
- Increased networking with local government for SDGs localisations to deliver commitments on children,
- Institutionalised CFLG in WVI Nepal working areas.

Our approaches

Besides regular lobby and advocacy, the following two approaches will be adopted:

Citizen Voice and Action (CVA) is a social accountability and local-level advocacy methodology that aims to address inadequate essential services by improving the relationship between communities and government, and empowering communities to hold government to account.

Child Friendly Local Governance (CFLG) is a strategic frame for child rights realisation at local level. It is to provide overall guidance to the government in realising and mainstreaming the rights of children (Survival, Development, Protection and Participation) into the local government system, structure, policies and process.

How do we achieve this

Networking and collaboration with strategic networks, Government at all levels of Government

Key activities

Building strategic partnership and

Amplifying children's voices in decision making process,

Strategic partners

Association of Community Radio Broadcasters Nepal (ACORAB), Nepal SDGs Forum, NCFLG Forum, Consortium Nepal, National Inter-Religious Network (NIRN)
