Our Focus Areas

Integrated Nutrition Programme: Increasing the number of children who are healthy and well-nourished.

112,000 pregnant women were counseled to receive appropriate health services.

Through growth monitoring and promotion, **78,000** children were reached.

32,000 households installed handwashing stations.

30,600 households constructed a sanitation facility due to World Vision's community led total sanitation campaign.

7,500 households received access to safe and clean drinking water.

Supported the endorsement of **219** Open Defecation Free (ODF) villages.

Our Approaches:

Community Health Workers (Children aged 0-5 years): A set of behaviour change counseling services aimed to support mothers, children under 5 years and household members at timely intervals to improve health and nutritional status.

Water, Sanitation and Hygiene (Children aged 0-18 years): A set of behaviour change interventions and community-led activities to improve access to safe water, promoting good sanitation and hygiene practice.

Build Secure Livelihoods (Children aged 0-18 years): Agriculture Co-operatives and Most Vulnerable Households will be supported through skills-building programmes, and linked with markets and finance institutions to improve local production in terms of fish farming, vegetable farming and livestock and improving the market value chain.

Education Programme: Children are equipped with literacy for life.

19,600 most vulnerable children were reached.

62 Early Child Development centres were accredited.

5,800 households set up reading corners for their children.

434 reading camps were established across the country.

92,600 educational materials were provided to children including most vulnerable children to enable or support home-based learning.

143 libraries met the minimum standards for libraries of the Ministry of Education, Youth and Sport.

2,100 teachers received Positive Discipline and Effective Classroom Management Training.

7,500 parents were trained on how to support their children at home.

Our Approach: Unlock Literacy (UL) project model involves strengthening reading instruction by training teachers to incorporate 5 core reading skills into lesson plans for the government curriculum, ensuring that children have a strong foundation in reading by the end of Grade 3.

Child Protection and Participation Programme: Children are protected from all forms of violence, and are participating in decision making.

158,000 children were reached and benefited.

377 Adolescent and Youth Led projects implemented.

192 community volunteers were trained to lead the implementation of positive parent training.

37,000 parents and caregivers received support, training, and awareness on positive parenting.

400 youth leaders were trained to lead the implementation of child and youth clubs.

8,600 local leaders and adults partnered with adolescents to address community issues.

Our Approaches:

Strengthening a Community Reporting and Referral Mechanism equips local formal and informal entities with a reporting and referral mechanism that ensures quality response for incidents of child abuse, neglect, exploitation, and other forms of violence.

Social Accountability for Child Protection is an approach to improve the performance of local child protection systems through collaborative and community participatory in planning and budgeting to ensure the accountability of all responsible stakeholders.

IMPACT+ is a holistic and multi-sectoral approach to adolescent engagement that supports adolescents to transition well into adulthood as active citizens empowered with competencies, values, confidence and social connectedness.

Celebrating Families (CF) is an approach in empowering parents/ caregivers to create a safe and nurturing environment for children with families.

It Takes a World to End Violence Against Children (ITAW) is a National Advocacy Campaign focusing on ending violence against children. The campaign focuses on addressing the main root causes of use of corporal and humiliating punishments in Cambodia.
